Description of the project idea

On our website project, we made a simple makeup store website by using everything we learned on the course we called it PINKISH (imaginary name for the make-up brand), sells different products, the project contains **6 HTML pages** and one **CSS page**, We added **JavaScript tags**.

Content:

The 1st page is the home page, which contains Brief summary about how the brand became.

The 2nd page contains details about the products we sell used, using JavaScript to hide elements.

the 3rd page contains drop-down list to choose a product.

the fourth page we added a video Ad about the brand.

the fifth page we are showing our lipstick color by clicking on the lips and change its color, using JavaScript.

the last page is check out form.
